The MP's recess dates have not been released from April onwards yet for the next few months and they will not be until towards the end of April, I do hope it would be okay if I get back to you once I know if Julian will be in York on any of the Tuesday dates in early May?

Action FH would write back asking for convenient dates when either an extra-ordinary meeting or a surgery could be arranged.

19/144 To Discuss, if necessary, long-standing matters:

1. Appearance of village –

Action Cllrs would research business signage within the parish, as the sign above the door of Sinclairs appeared out of keeping.

The Parish Council welcome and support the proposed amendment of the existing R38 resident parking area with 12 hours parking for no-permit holders to change allowance for no-permit holders to 2 hours, no return within one hour.

3. City of York Council

3.2 Local Plan – KA reported that he assumes the public hearings will be after the May 2019 elections.

4. University of York

4.1 Antisocial Behaviour – due to University holidays there had been no incidents reported.

4.2 Latte Levy

York University had written as follows – “Since the start of the new year, the University has been levying a 20p charge on coffee served in disposable cups from its catering outlets. The amount of money currently sitting in the fund is now several thousand pounds and we are looking for initiatives that the money can be spent on and which have an environmental/sustainable element to them. During discussions it was suggested that we might ask the Parish Council if it had any projects along these lines that it would like to do and that would benefit from additional funding that might be able to be

provided by the University via the levy? If this is the case, then do please let me know and I will take it forward. Alternatively, if the Parish Council wanted to consider this offer and maybe think of some things it might like to do that would be fine, although the money currently sitting in the fund has to be spent by the end of July. In any case let me know what you think”. The Parish Council were a little unsure of what schemes to prioritise, without any guidance, costings etc. However, as all suggested schemes, fulfilled the requirement for sustainability they would be submitted:

*Promotion of Boss Lane as a nature, quiet area.

*Replace existing blue waste-bin for full compartmentalised recycling facility bin- Norwegian centre car park, Main St

*Repair/ replace soft play surface area- Sportsfield

*Replacements for dying trees - Sportsfield boundary hedgerow **Action PB** would reply to Gordon Eastham, York University

5. Neighbourhood Planning – DB reported the Working Group are continuing its review of all responses. The Environment Agency had now responded and has no objection to the Draft Plan, which they considered would have no significant impact on the environment. A response from Natural England was still awaited. The Working Group agreed that no major alterations were required which might have resulted in the need for a second Pre-Submission consultation. DB summarised the key changes and advised the target is still to seek Parish Council approval at the June 2019 meeting. Regarding finances, Groundworks had agreed to the unspent monies been carried forward, as long as spending in line with submission.

6. Communication: The next edition of the newsletter had been circulated by PH and the Parish Council approved it, **Action PH** would forward to FH. **Action FH** forward to printers and ask for confirmation received.

The Parish Council do not have any concerns with the dwelling conversion, but are concerned about the gates. If there must be gates, they should be set back and not on the road side. The material described in the application are not in keeping and should be sympathetic to the neighbouring properties e.g. wrought iron.

The children along with the crossing patrol person are surrounded by fume belching stationary vehicles especially in the mornings. Perhaps the lights could be synchronised to improve traffic flow away from Heslington at least this may reduce the amount of pollution away from the children many or which are at exhaust pipe level.
PB had responded as follows – “Thank you for your email. We have a Parish Council meeting on Tuesday at 7.30pm. I will ensure that Cllrs receive your comments. Our local Ward Cllr should also be there. CYC have recently proposed changes to that area “Safe Routes to School Scheme”. The PC has responded to the consultation. We are not aware of a decision.
